

Prayer for Seven Dhatus

May 11, 2009

The Prayer for Exorcism and Prayer for Purification can purify the nadis (channels) but cannot remove excess dosha or negative prana accumulated in the organs. To remove them, use the "Prayer for Seven Dhatus."

Usually, giving this prayer once a week or a month is sufficient.

If you want to stop smoking or free yourself of alcoholism, I recommend you to pray every day and additionally not 3 times but 3 malas (108x3 times). This way of praying is more effective.
